Book Description

'Hannah & Amy go to Peru' is the first of 10 books in an exciting new children's book series that engages your child's curiosity about the broader world. Written from the perspective of Hannah (8) and Amy (5), this series will captivate young reader's attention in a way that traditional children's books about countries do not. Based on their real-life travels, 'Hannah & Amy go to Peru' offers your child a glimpse of the people, animals and sites of Peru.
